Trackside Warm-up Protocol

The following protocols will be in force during warm-up sessions.

1. Understand that there are many riders focused on getting ready for their specific event. Be courteous and patient when entering and exiting the track racing surface. It may take you a lap or two on the apron before you find a gap to enter the track surface safely.
2. Make sure you “head check” by looking over your shoulder before making a lateral (sideways) move on the track.
3. Use the words “Stick”, “Stay” or “Rail” to tell other riders what your intention is when approaching them from behind.
4. Keep the rail clear for those riders doing flying 200m efforts.
5. Slower riders not performing $\frac{3}{4}$ pace effort or higher must ride above the Stayers line, especially when riding side by side or cooling down. Let riders doing faster efforts have priority over the lower portion of the racing surface.
6. No motor-pacing or standing starts to be conducted during “Open Track Sessions” within one hour of a scheduled race session. There are too many people using the track for these efforts to be conducted safely.
7. Any riders using foul language or gesturing in a rude manner will be sanctioned and potentially disqualified.
